

Professional Diamond Tools  
Hangzhou JDR Diamond Tools Co., Ltd

1.V-slot Electroplated blades

---

Specially designed to cut marble,FRP,GRP,bone, fiberglass, rubber and other composite material with fast cutting performance. Dry cutting can be used in small job.

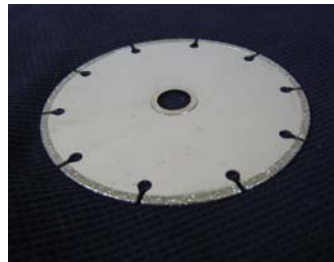

Item No	Size	Arbor
JDR-EPV115	4.5"	22.23
JDR-EPV125	5"	22.23
JDR-EPV150	6"	22.23
JDR-EPV180	7"	22.23
JDR-EPV230	9"	22.23

2. K-Slot Electroplated blades

---

Item No	Size	Arbor
JDR-EPK115	4.5"	22.23
JDR-EPK125	5"	22.23
JDR-EPK150	6"	22.23
JDR-EPK180	7"	22.23
JDR-EPK230	9"	22.23

3. U-slot Electroplated blades with diamond coated side

---

Item No	Size	Arbor
JDR-EPUDCS115	4.5"	22.23
JDR-EPUDCS125	5"	22.23
JDR-EPUDCS150	6"	22.23
JDR-EPUDCS180	7"	22.23
JDR-EPUDCS230	9"	22.23

4. Continuous rim Electroplated Wave Blades

---

Used in cutting marble, FRP,GRP,ceramic tiles, limestone,alabaster,pyrophyllite,chlorite,porcelain, electro carbons,soft ferrites,PC boards,Rubber and magnetic products

Dry cutting can be applied. Diamond side coating to achieve chipping free and smooth cutting.

Item No	Size	Arbor
JDR-EPCWC115	4.5"	22.23
JDR-EPCWC125	5"	22.23
JDR-EPCWC150	6"	22.23
JDR-EPCWC180	7"	22.23
JDR-EPCWC230	9"	22.23

#### 5. Continuous rim Electroplated blades

---

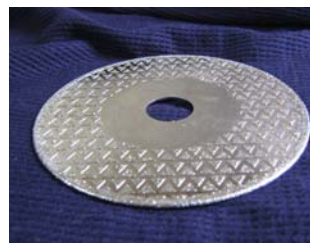

Item No	Size	Arbor
JDR-EPCR100	4"	22.23
JDR-EPCR115	4.5"	22.23
JDR-EPCR125	5"	22.23
JDR-EPCR150	6"	22.23
JDR-EPCR180	7"	22.23
JDR-EPCR230	9"	22.23

#### 6. Pyramid Electroplated blades

---

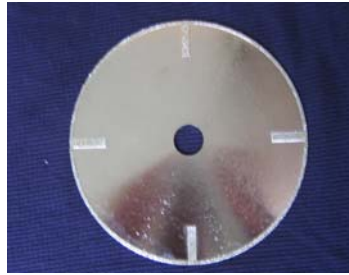

Item No	Size	Arbor
JDR-EPCP100	4"	22.23
JDR-EPCP115	4.5"	22.23
JDR-EPCP125	5"	22.23
JDR-EPCP150	6"	22.23
JDR-EPCP180	7"	22.23
JDR-EPCP230	9"	22.23

#### 7. Continuous rim Electroplated blades with straight protections

---

Item No	Size	Arbor
JDR-EPCRWSP115	4.5"	22.23
JDR-EPCRWSP125	5"	22.23
JDR-EPCRWSP150	6"	22.23
JDR-EPCRWSP180	7"	22.23
JDR-EPCRWSP230	9"	22.23

These E.P diamond saw blades provide more smooth cutting and straight cutting with straight protect on sides And undercutting protection  
The No of Protections can be ordered by your special requirement.

#### 8.Continuous rim Electroplated blades with turbo protections

---

Item No	Size	Arbor
JDR-EPCRWTP115	4.5"	22.23
JDR-EPCRWTP125	5"	22.23
JDR-EPCRWTP150	6"	22.23
JDR-EPCRWTP180	7"	22.23
JDR-EPCRWTP230	9"	22.23

#### 9. Pyramid Electroplated blades with flange

---

Item No	Size	Arbor	These Electroplated Diamond saw blades are specially
JDR-EPCPWF115	4.5"	22.23	Designed to use in cutting and grinding hard materials such as
JDR-EPCPWF125	5"	22.23	Marble,Composites & Plastics and flush cutting application with flange
JDR-EPCPWF150	6"	70/22.23	Ultimate performance on extremely abrasive materials
JDR-EPCPWF180	7"	70/22.23	Advanced bond outperforms any other blade
JDR-EPCPWF230	9"	70/22.23	when cutting softer natural stone,travertine,soapstone and limestone.

Standard diamond grit:40/50 and other diamond grit can be ordered

#### 10. Continuous rim Electroplated blades with turbo protections and flange

---

Item No	Size	Arbor
JDR-EPCRWTPF150	6"	70/22.23
JDR-EPCRWTPF180	7"	70/22.23
JDR-EPCRWTPF230	9"	70/22.23

With Turbo protections and flange, flush cutting can be used.  
Clean cutting and smooth cutting on soft stone materials, plastic, etc.

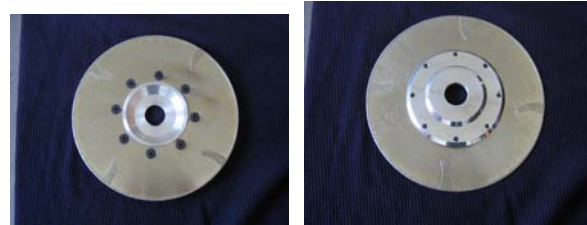

### 11. Continuous rim Electroplated blades with Straight protections and flange

Item No	Size	Arbor
JDR-EPCRWSPF150	6"	70/22.23
JDR-EPCRWSPF180	7"	70/22.23
JDR-EPCRWSPF230	9"	70/22.23

### 12. Continuous rim Electroplated blades with J protections and flange

Item No	Size	Arbor
JDR-EPCRWJPF150	6"	70/22.23
JDR-EPCRWJPF180	7"	70/22.23
JDR-EPCRWJPF230	9"	70/22.23

### 13. U-slot Electroplated blade with straight protections and flange

Item No	Size	Arbor
---------	------	-------

JDR-EPUWSPF115	4.5"	22.23
JDR-EPUWSPF125	5"	22.23
JDR-EPUWSPF150	6"	70/22.23
JDR-EPUWSPF180	7"	70/22.23
JDR-EPUWSPF230	9"	70/22.23

#### 14. Concave Electroplated blade with straight protection

Item No	Size	Arbor
JDR-EPCRCONSP115	4.5"	22.23
JDR-EPCRCONSP125	5"	22.23
JDR-EPCRCONSP150	6"	22.23
JDR-EPCRCONSP180	7"	22.23

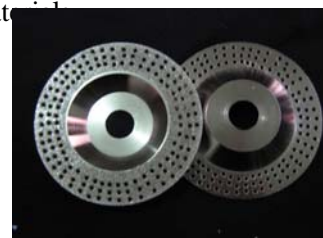

For cutting circles or curved line on the slab or marble and granite countertops  
 The protection on the both in- and- out side provide faster cutting on marble and other hard stones.  
 Diamond grit:40/50 Standard. or as your requirement

#### 15. Electroplated cup wheels

Specially designed to grind marble,FRP,GRP,bone, fiberglass, rubber and other composite material  
 With fast grinding performance and clean result.  
 Water holes on the surface to improve the working life and removal material  
 Diamond grit:40/50 Standard. or as your requirement

Item No	Size	Arbor
JDR-EPCU100	4"	22.23
JDR-EPCU115	4.5"	22.23
JDR-EPCU125	5"	22.23
JDR-EPCU150	6"	22.23

#### 16. Electroplated cup wheels with flush holes

Curved side to achieve easy working from one surface to another surface with different level.  
 working material: marble, granite, glass, other very hard materials

Fast grinding and clean result

Item No	Size	Arbor
JDR-EPCUWFH100	4"	22.23
JDR-EPCUWFH115	4.5"	22.23
JDR-EPCUWFH125	5"	22.23

### 17. Electroplated core drill bits (Hexagon Handle)

Suitable for fast and clean drilling of marbles, granite, ceramic tiles, glass, cement, PVC, FRP, GRP, etc  
Diameters from 5 to 100 are available

Accurate cutting than other diamond core drill bits

Item No	Diameter
JDR-EPCDB05	5
JDR-EPCDB10	10
JDR-EPCDB20	20
JDR-EPCDB30	30
JDR-EPCDB35	35
JDR-EPCDB40	40
JDR-EPCDB45	45
JDR-EPCDB50	50
JDR-EPCDB55	55
JDR-EPCDB60	60
JDR-EPCDB70	70
JDR-EPCDB80	80
JDR-EPCDB90	90
JDR-EPCDB100	100

### 18 Electroplated diamond needle files

These easy-to-handle diamond needle files are with most popular shapes.

They are flat, half round, Square, triangular, round, warding, knife, triangle one side, crossing, oval, slitting and crochet.

Application: Used for virtually any precision filing, de-burring, notching, dressing and honing of hard, brittle materials.

Item No	Specification
---------	---------------

Cross Section	Shape
	Flat

JDR-EPNF02 2\*140/100\*50  
 JDR-EPNF03 3\*140\*50/70  
 JDR-EPNF04 4\*160\*50/70  
 JDR-EPNF05 5\*180\*70

Standard daimond grit:120#  
 other special diamond grit can be ordered

Securit	
	Flat
	Half round
	Square
	Triangular
	Round
	Warding
	Knife
	Triangle one side
	Crossing
	Oval
	Slitting
	Crochet

### 19. Electroplated Diamond Taper Files

These **straight-pitch diamond taper files** are mainly used for **filing** inside slots or grooves, where are inaccessible with straight files.

Item No	Total Length *working length	cross size
JDR-EPTF10	130*30	3,2*0.4/1.7,4*0.4/1.7,6*0.4/1.7
JDR-EPTF12	140*40/50	2*0.4/1.5,4*0.5/2.0,6*0.5/2.0,8*0.5/2.5

Diamond grit:150,240,320

### 20. Electroplated Diamond Large Hand Files

Electroplated diamond large hand files with several shapes. They are flat, round, square, triangular and half round. Wooden or plastic handle.

Item No	Size
JDR-EPLF03	3"

- JDR-EPLF04 4"
- JDR-EPLF06 6"
- JDR-EPLF08 8"
- JDR-EPLF10 10"
- JDR-EPLF12 12"

Diamond grit: 120, 200, 400  
Ti-coated or without

21. Electroplated diamond mounted points(burrs)

used for sculpturing, dressing, precision grinding and internal grinding  
carbide, ceramics, glass, precious stones, alloy and many other abrasive materials

Diamond grit: 150 as standard

Item No	Specification
JDR-EPMP08	2.35x45x8pcs
JDR-EPMP10	3mmx45x10pcs/6.35mmx45x10pcs
JDR-EPMP15	3.17mmx45x15pcs
JDR-EPMP20	6mmx60x20pcs
JDR-EPMP25	3mmx45x25pcs
JDR-EPMT30	3mmx45x30Pcs
JDR-EPMP50	3.17x45x50pcs

22. Electroplated diamond profiling wheels

Designed to profile cut marble tile. Max. 6,000 rpm. 6" diameter with 3/8 and 1/2 radius.

Shape: Demi Bullnose, Ogee, Bevel, etc.

Diamond grit: 40/50 Standard. or as your requirement
